

The 42nd Ordinary General Meeting of Shareholders
Summary of Shareholder Comments from the Virtual Shareholder Meeting
(June 22, 2021)

Q. How many people attended the meeting in person?

A. 38 shareholders attended the meeting in person.

Q. As the stock price is low, I would like you to consider raising the dividend payout ratio to 40% or higher.

A. In considering the balance between returning profit to shareholders and investing for growth, we have judged that the current level of 30% is appropriate. We value the opinions of shareholders and will take this into consideration going forward.
