Capcom is First Among All Listed Companies in**“Investor Relations Site Ranking 2013”!**

- Capcom receives high marks for “website user-friendliness”,
“depth of corporate finances/financial statement information” and more -

Capcom Co., Ltd. (Capcom) is pleased to announce that its investor relations website was awarded first place among all listed companies on Morningstar Japan K.K. Gomez Consulting Dept.’s “Investor Relations Site Ranking 2013”.

The “Investor Relations Site Ranking” determines the ranking of websites among 3,502 publicly listed companies in Japan based on the four categories of “website user-friendliness”, “depth of corporate finances/financial statement information”, “depth of corporate/business information”, and “positive and innovative disclosure of relevant information”. Gomez Consulting has a highly regarded reputation for its ability to analyze web sites and provide valuable insights as well as offer consulting services.

Capcom firmly believes in its responsibility as a publicly traded company to disclose relevant information in a timely manner to shareholders and investors. This is also vital to corporate governance and Capcom has always striven to uphold strict disclosure standards.

The Capcom IR web site has been improved to distribute information that gives investors as well as a broad range of other visitors a better understanding of Capcom. Using social media to supply information is one example. Capcom also has a site for smartphones and supplies the “Capcom IR for iOS” app for iPhones. The addition of many services for smartphones helped earn the Capcom IR web site second place in three categories: “website user-friendliness”, “depth of corporate finances/financial statement information”, and “positive and innovative disclosure of relevant information”.

In addition, Capcom IR web site received high marks for incorporating the viewpoints of people from outside the company such as third-party corporate governance analysts, and dialogues with securities analysts and Capcom’s corporate auditors. Overall, these strengths resulted in Capcom’s first place overall ranking in the “Gomez Investor Relations Site Ranking 2013”.

Capcom continues to focus on establishing responsible investor relation practices and procedures to promote timely disclosure in order to improve investor relations and to maintain a high level of transparency in its business practices as a listed company.
