Shipments of *Resident Evil 2* Top 4 Million Units Worldwide!

- Favorable growth in unit sales backed by multitude of positive reviews -

Capcom Co., Ltd. (Capcom) today announced that *Resident Evil 2* for the PlayStation®4 computer entertainment system, the Xbox One family of devices including Xbox One X, and PC has shipped 4 million units globally.

The *Resident Evil* franchise features survival horror games in which players utilize a variety of weapons and other items to escape terrifying situations. Cumulative sales of the games in the series now total 90 million units* since the first title debuted in 1996. More than 20 years later, continuous support from the passionate fan base across the globe makes it one of Capcom's flagship game series. *As of February 26, 2019

Originally released in 1998, *Resident Evil 2* went on to achieve cumulative sales of 4.96 million units, making it the fourth best-selling game in the *Resident Evil* franchise. In the 2019 release, Capcom used its cutting-edge R&D facilities to build the game completely from the ground up for current-generation game platforms. In addition to visual effects, including detailed, photo-realistic graphics made possible with RE ENGINE, Capcom's proprietary development engine, the title provides players with a fresh horror experience via audio featuring Dolby Atmos 7.1.4 and real-time sound image rendering that utilizes binaural technology. As a result, *Resident Evil 2* garnered critical acclaim around the globe from both the media and game players alike, propelling sales to 4 million units worldwide. Further, Capcom released free additional content titled *The Ghost Survivors* on February 15 in order to provide players of *Resident Evil 2* with a longer, more engrossing gameplay experience.

Capcom remains firmly committed to satisfying the expectations of all stakeholders by leveraging its industry-leading game development capabilities in order to create highly entertaining gameplay experiences.
