**Capcom Annual Report 2009 Receives High Praise
at the Nikkei Annual Report Awards !**

Capcom Co., Ltd. is proud to announce that our Annual Report 2009 was the recipient of the esteemed Award for Excellence at the Nikkei Annual Report Awards sponsored by the Nihon Keizai Shimbun.

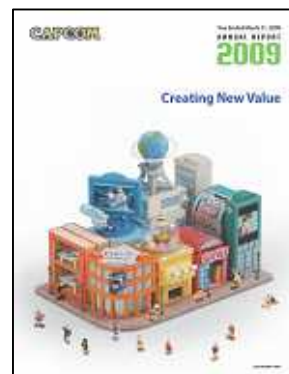

This annual report competition has been held every year since 1998, presenting the most prestigious awards for annual reports of Japanese companies. This year 79 companies submitted their annual reports for consideration by a panel of judges made up of fund managers and securities analysts. Reports are evaluated based on ten qualitative and quantitative items, ensuring that scores are determined with strict fairness and accuracy.

The award-winning Capcom Annual Report 2009 now includes an all-new “Capcom DATA” section, a collection of sales data and information about major products from each business segment. The report also details our strategy for growth, namely focusing on strengthening development capabilities, promoting our “single content multiple usage” approach for games and expanding overseas market development. In addition, the separate “Latest Development Report” insert is full of information including interviews with developers and staff that help give investors a deeper understanding of how Capcom is able to turn out hit titles year after year in this rapidly growing industry.

We believe that with these elements, we were able to surpass even last year’s high marks and earn the Award for Excellence in fiscal year 2009.

To maintain a high degree of transparency for its operations, Capcom remains dedicated to conducting investor relations activities based on three fundamental themes: establishing a responsible IR framework, further upgrading the disclosure of information, and ensuring the timely and proper disclosure of information.
