Press Release

Capcom Co., Ltd.

Sales of *Monster Hunter Rise: Sunbreak* Surpass 5 Million Units Globally!

- *Monster Hunter World: Iceborne* exceeds 10 million units sold due to strategic pricing -

Capcom Co., Ltd. (Capcom) today announced that *Monster Hunter Rise: Sunbreak* (*Sunbreak*, below), the massive premium expansion for *Monster Hunter Rise* (*Rise*, below), has sold 5 million units worldwide.

The *Monster Hunter* series consists of hunting action games that pit players against giant monsters in beautiful natural environments. Beginning with the first title in 2004, the series established a new genre in which players cooperate to hunt ferocious monsters with their friends and has since grown into a global phenomenon with cumulative sales of the series exceeding 88 million units shipped as of September 30, 2022.

Sunbreak is a massive premium expansion for *Rise* and was released in June 2022. In addition to garnering acclaim for its new locales, monsters and never-before-experienced hunting actions, *Sunbreak* was further supported with ongoing free title updates and strategic pricing, which contributed to favorable sales growth, driving global sales of the title to over 5 million units. Capcom looks to further increase sales by bringing these titles to additional platforms, with *Rise* launching on Xbox Series X|S and PlayStation®5 on January 20, 2023, followed by *Sunbreak* in spring 2023.

Additionally, sales of *Monster Hunter World: Iceborne*, the massive premium expansion for *Monster Hunter: World* that was released in September 2019, surpassed 10 million units worldwide.

Capcom remains firmly committed to satisfying the expectations of all game players by leveraging its industry-leading game development capabilities.
