***Monster Hunter Rise: Sunbreak Wins Grand Award and
Resident Evil 4 Wins Award for Excellence in the
Games of the Year Division at the Japan Game Awards: 2023!***
- Dragon's Dogma 2 wins award in the Future Division -

Capcom Co., Ltd. (Capcom) today announced that *Monster Hunter Rise: Sunbreak* was awarded the Grand Award and *Resident Evil 4* was awarded an Award for Excellence in the Games of the Year Division of the Japan Game Awards: 2023 (held by the Computer Entertainment Supplier's Association), while *Dragon's Dogma 2* won an award in the Future Division. The prizes were announced at Tokyo Game Show 2023, which was held from September 21-24.

Winner of the Grand Award, *Monster Hunter Rise: Sunbreak* is a massive premium expansion for *Monster Hunter Rise*. As a result of garnering acclaim for its content, including new locales, monsters and never-before-experienced hunting actions, the game has cumulatively sold over 6.1 million units*¹ worldwide. Capcom looks to continue growing sales over the long term through initiatives such as strategic pricing.

Further, recognized with an Award for Excellence, *Resident Evil 4* is a remake of the original, groundbreaking 2005 title. The game was lauded by both fans of the series and newcomers alike for carefully recreating the appeal of the original while providing a fresh gameplay experience, leading cumulative global sales of the title to exceed 5 million units*². Capcom aims to continue expanding sales of the title with the September 21 release of *Separate Ways* additional story downloadable content, as well as the upcoming release of *Resident Evil 4 VR Mode*, which is free downloadable content that will allow players to experience the game's main campaign on PlayStationVR®2.

Also, *Dragon's Dogma 2* won an award in the Future Division, where players vote to select the upcoming titles they most look forward to. Playable demo versions of the title garnered mass attention from attendees soon after show doors were opened.

Capcom remains firmly committed to satisfying the expectations of all users by leveraging its industry-leading game development capabilities in order to create highly entertaining gameplay experiences.

*¹ As of June 30, 2023

*² As of July 20, 2023
