***Dragon's Dogma 2* Scheduled to Launch March 22, 2024!**

- Capcom aims to further establish the *Dragon's Dogma* brand
with this highly-anticipated latest title in the series -

Capcom Co., Ltd. (Capcom) today announced that *Dragon's Dogma 2*, the latest game in the *Dragon's Dogma* series, is scheduled to be released on March 22, 2024. With the launch of *Dragon's Dogma 2*, Capcom closes out a stellar year of major title releases for its 2023 fiscal year.

The *Dragon's Dogma* series consists of action games in a fantasy setting where players adventure in an expansive open world of swords and magic. Since the release of the first game in 2012, the series garnered praise worldwide for gameplay features such as its "pawn" adventure companions who can carry out actions on their own, leading the series to over 7.9 million units sold cumulatively (as of September 30, 2023).

Dragon's Dogma 2 is the latest title in the series, and the first mainline entry since the original *Dragon's Dogma* was released in 2012. The game is being developed on Capcom's proprietary RE ENGINE to provide an all-too-real world of fantasy, intricately crafted with gorgeous visuals. Moreover, the game provides an even higher degree of freedom in its action than its predecessor, while providing players with a taste of adventuring in a group when playing solo thanks to AI-controlled pawn characters that act as travelling companions. *Dragon's Dogma 2* is currently in development and aims to deliver an experience that satisfies both newcomers as well as long-time fans. Further, excitement for the title was exemplified at Tokyo Game Show 2023, held in September 2023, where the game was selected for an award in the Future Division, which recognizes the most anticipated upcoming titles during the show.

Capcom remains firmly committed to satisfying the expectations of all stakeholders by leveraging its industry-leading game development capabilities in order to create highly entertaining gameplay experiences.
